# Dhanush Ganta

B.Tech Student | Aspiring Applied AI Engineer

6303670765 | gantadhanush67@gmail.com | linkedin.com/in/dhanushganta | github.com/gantadhanush67-alt

## PROFILE

B.Tech student at JNTUA College of Engineering, Kalikiri, interested in building practical web applications and exploring applied AI. Currently developing skills in frontend development, programming, and AI-assisted projects.

## EDUCATION

**B.Tech — Electrical and Electronics Engineering** **2024–2028**

JNTUA College of Engineering, Kalikiri

## TECHNICAL SKILLS

**Web:** HTML, CSS, JavaScript, Bootstrap, React
**Programming:** Python
**AI:** Applied AI fundamentals, image classification, AI-assisted development

## PROJECTS

### CineTalent

A web project focused on discovering and presenting talent from Indian cinema, with a modern digital interface and AI-assisted development workflow.

### Teachable Machine — Resistor Image Classification

An image classification project using labelled resistor images to explore how a model distinguishes between different image categories.

### FSWD Capstone Portfolio

A responsive personal portfolio website built with HTML, CSS and JavaScript, including project sections, navigation, responsive design, and a working contact form.

## EXPERIENCE

**InAmigos Foundation — AI Research Internship**
Completed research and problem-solving activities covering AI trends, AI-based solutions, responsible AI, and AI for social impact.

## COURSEWORK & LEARNING

**NxtWave — Full Stack Web Development / AI-focused learning program**
Learning web development, programming, and AI-related concepts through structured coursework and hands-on projects.
